FIT3161 Computer Science Project Part 1
FIT3163 Data Science Project Part 1

Marking Rubric for Project Initial Concept and Design/Data Analysis Presentation

Note: Each criteria will be marked out of 10 and the overall presentation will be marked out of 60.

	HD (10-8.0)	D (7.5-6.5)	C (6.0-5.5)	P 5.0	F 4.0-0
Individual Content	Excellent coverage and discussion by the student of their part of the main content as mentioned in the assignment specification available as a separate document on Moodle.	Good coverage and discussion by the student of their part of the main content as mentioned in the assignment specification available as a separate document on Moodle.	Adequate coverage and discussion by the student of their part of the main content as mentioned in the assignment specification available as a separate document on Moodle. Minor clarifications are required.	Adequate mention by the student of their part of the main content as mentioned in the assignment specification available as a separate document on Moodle. Minimal or no discussion provided.	Not meeting P grade.
Individual presentation skills	Speaks confidently and clearly. Maintains excellent eye contact and body language Engages the audience with enthusiasm and effective use of vocal variety. Using cue cards or notes effectively and minimally.	Speech is mostly clear and is paced well. Maintains good eye contact and body language. Slightly dependent on cue cards or reading of notes.	Speech is a bit unclear with some minor hesitations. Inconsistent eye contact and body language. Reading straight from cue cards or notes, with few breaks.	Speech is unclear and frequent hesitations. Avoids eye contact and limited body language. Reading straight from cue cards or notes for a significant amount of time.	Not meeting a P grade.
Team presentation skills and coordination	Excellent team coordination Excellent preparation, flow and structure of presentation. Shows good preparation as a team.	Good team coordination Good preparation and structure of presentation.	Team coordination and some preparation, can be improved.	Team coordination and preparation is not evident.	Not meeting a P grade.
Visual (slides)	Visual relates to oral well. Easy to read and follow. Adds to the understanding of presentation Good balance of content, colour and white space. Slide format is professional and consistent across all presenters.	Visual relates to oral. Easy to read and follow. Add to the presentation Good balance of content, colour and white space. Slide format is professional and consistent across all presenters.	Visual relates to oral. Easy to read and follow. Good balance of content, colour and white space mostly OK. Slide format is not very consistent across all presenters There is obvious room for improvement.	Visual does not relate to oral. Not very clear and can be organised better. Balance of content, colour and white space can be improved. Lacks consistency.	Not meeting a P grade.
Content relevance and completeness	Excellent and complete coverage of the overall content as a team, as mentioned in the assignment specification. Excellent coherence and flow of content.	Good and near complete coverage of the content as a team, as mentioned in the assignment specification. Good coherence and flow of content.	Adequate coverage of most of the content as a team, as mentioned in the assignment specification. Minor clarifications are required.	Some coverage of the content as a team, as mentioned in the assignment specification. Clarifications required.	Not meeting a P grade.
Q & A responses and professionalism	Excellent reply to question, relevant, comprehensive and very well constructed and showing high confidence. Multiple contributors to a cohesive answer.	Good reply to question, relevant, covers main points and is well constructed. May require minor clarification. Showing good confidence.	Good reply to question, relevant, covers most of main points . May require clarification or followup question.	Reply to questions, mostly relevant, covers some main points. Requires further clarification and followup questions.	Not meeting a P grade.
